Allotment of funds for plague expenditure

From

The Sanitary Commissioner

No. 1715 Dated 29-10-13 Received 31-10-13

Diary No. 5367	Enclos. 2 Spare Copies.	Serial No. 1

BRIEF ABSTRACT OF LETTER.

States that the provision made in the current year's Municipal and District fund budgets for expenditure in connection with plague preventive measures is too inadequate to ensure that the measures are carried out satisfactorily and suggests that pending a more liberal provision for the ensuing year, the plague expenditure for the current year may be treated as debitable to provincial funds

NOTES AND ORDERS.

The amount provided in the current years' Municipal and District fund budgets for plague and cholera charges in the districts is Rs 7217 and 2,650 respectively. In Bangalore and Mysore cities the plague expenditure is met from the Municipal & provincial funds in equal proportions. The President of the Sanitary

NOTES—First Sheet.

Bombay Kolaba Kolaba files has provided Rs 2,000/- for plague, Cholera and other Epidemic charges.

2 It is submitted that inadequacy of provision in the current years Municipal & District fund budgets is no good reason for modifying or deferring the Govt. order No 6381-92 dated the 8th March 1912, directing that the charges for the suppression and prevention of plague, including the erection of sheds be borne by the local bodies concerned. In the case of well-to-do Boroughs where Govt. find that no help from the State funds is necessary pre-appropriation may be suggested and sanctioned. Where local bodies are unable to meet the charges in full, the question of a grant-in-aid from Provincial funds, may under the Govt. order quoted above be dealt with on its merits.

Sec 250-07-33

3. It is a point for consideration whether Grants have to be sanctioned from State funds on account of the sinking of Tenkovery wells for the suppression of Cholera.

4. Information is not available as to the expenditure incurred in each District for plague preventive measures from Provincial, Municipal & District funds. If approved the Compilation will be addressed on this point.

5. Submitted for orders.

11 As suggested in para 2 of the Notes grants may be given to Local bodies which are unable to meet the expenditure. By adopting this course, the Municipal & District Boards will have control over the whole expenditure and the difficulty pointed out in para 7 of G.O. No. 6387-92 dt 8th March'12 will be over. Comm. 250-07-33

Some- In the State budget, the usual provision (Rs 500000/-) without any deduction for charges transferred to the Local bodies is made and it will be easy to find funds for making grants-in-aid, if necessary, to these bodies

In fact it is intended to supplement the resources of the Local bodies as stated

the same as grants-in-aid under the G.O of 8-3-1912

2. Treating proper provision for Epidemic Charges in the L.B & Municl budgets

Adopt the course mentioned in para 8 supra.

3. Changing the term 'Plague charges' to 'Epidemic charges'

This is not desirable. The local bodies have been doing the necessary works & finding funds for the suppression of Cholera hitherto. It became the charges in connection with the suppression of plague were very heavy, & not the State stepped in to help them. The adoption of the proposed change in designation will lead to more clamouring for grants by local bodies in deserving cases, & there does not appear to be any difficulty in sanctioning a grant for even cholera charges, so long as we can find funds available in the Sanitary budget.

Office of the Sanitary Commissioner
with the Government of Mysore

Bangalore dated the 29.13 October 1913

From

P.S. Achyuta Rao Esq.,
Sanitary Commissioner with
the Government of His Highness
the Maharaja of Mysore, Bangalore.

To

K.R. Srinivasa Iyengar Esq., M.A.,
Secretary to the Government of His
Highness the Maharaja of Mysore,
General & Revenue Departments,
B a n g a l o r e

Sir,

I have the honor to state that the orders conveyed in Proceedings No. 6381-92 Sany. 250-07-33 dated the 8th March 1912 require that ordinarily the charges for the suppression and prevention of plague, including the erection of sheds, should be borne by the local bodies concerned. But from the accompanying statement A compiled from the figures obtained from the Presidents of the various District and Municipal Boards it is seen that the very inadequate sums provided would entail that either the preventive measures are not carried out at all or are adopted in such a perfunctory manner as to be quite valueless. Under the circumstances I would recommend that the Government Order referred to above may be kept in abeyance for this one year and that in the meantime the various District and Municipal Boards be instructed to provide for a reasonably adequate amount for expenditure on the several items indicated by the headings in the Provincial Budget under ' Plague charges ' or if this be not possible to make out a case for a grant-in-aid, - for

for the consideration and orders of Government.

2. As the plague grant sanctioned by Government for the current year could not be allotted among the various Districts in the absence of definite orders on the point now raised and at the same time seeing that preventive measures cannot be delayed on any account I have informed the Deputy Commissioners that plague expenditure may be incurred as usual pending allotment of funds later on.

3. I would in this connection suggest the desirability of what are now termed ' plague charges ' being more comprehensively treated as ' Epidemic charges ' and of grants-in-aid being sanctioned wherever a Municipality or District Board is on account of paucity of funds unable to meet the expenditure on sinking of temporary wells, provision of pumps etc. The enclosed statement B shows that Cholera claims annually about 2000 victims and much of this loss of life is preventible provided only that measures are adopted promptly by the Sanitary Officers without, as at present, having to pause to consider every item of expenditure, however small the amount, that has to be incurred.

I have the honor to be,
Sir,
Your most obedient servant,

C. J. Cuming Walters

Sanitary Commissioner.

P.H.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Sanitary), dated 31st January 1914.

READ—

Letter No. 1715, dated the 29th October 1913, from the Sanitary Commissioner in Mysore, stating, with reference to para 5 of Government Proceedings No. 6381-92—San. 250-07-33, dated the 8th March 1912, that the amounts provided by the various Municipal and District Boards for plague expenditure during the current year are quite inadequate, and recommending (1) that the allotment for the current year may as usual be made from Provincial Funds; (2) that the District and Municipal Boards be instructed to provide in future in their respective budgets a reasonably adequate amount for expenditure in connection with plague preventive measures and (3) that the annual grant sanctioned under 'Plague charges' be treated more generally as 'Epidemic charges' and availed of for expenditure required for effectively preventing the spread of cholera epidemics in the State,

---

No. 7131-48—San. 58-13-2, dated Bangalore, 31st January 1914.

ORDER THEREON.—Government consider that no case has been made out for relaxing their order of the 8th March 1912, and are of opinion that the necessary expenditure on plague preventive measures should be met by reappropriation of sanctioned grants in all possible cases. Where, however, such a course is impracticable, it is open to the Sanitary Commissioner to recommend a grant-in-aid from the State Funds under para 5 of the aforesaid order.

2. As regards the second point, the Sanitary Commissioner is requested to intimate to each of the local bodies in January of every year the probable amount required during the following official year for epidemic charges within the area under its control and also to submit a consolidated statement of such estimates to Government for reference while sanctioning the budgets.

3. Government are not inclined to accept the third of the recommendations made by the Sanitary Commissioner as the measures for the suppression of cholera consitute one of the primary duties of the local bodies concerned.
